Delivering unparalleled
quality and innovation.

Welcome to Oasix Interiors

Crafting Timeless Spaces
with Integrity and Innovation

At Oasix Interiors, we believe that furniture is more than just a product; it's the foundation of an environment designed to inspire, endure, and elevate everyday living. With over 27 years of heritage, our vertically integrated business seamlessly blends British values with exceptional production expertise, operating from a state-of-the-art facility and in partnership with Ebony & Ivory in the MENA region.

Our approach centers on shaping environments with integrity, precision, and purpose. We offer fully customized, sustainable solutions for residential, hospitality, and commercial spaces, working directly with developers, designers, and operators to bring your vision to life. Each piece reflects timeless craftsmanship and modern design, combining solid wood, durable fabrics, and refined detailing for lasting performance and style.

From initial concept to final installation, Oasix Interiors provides a comprehensive, customized service that streamlines your experience and guarantees outstanding quality, efficiency, and value. Experience the benefits of investing in exceptional furniture crafted to leave a lasting impression.

End-to-End Tailored Service From initial consultation to white-glove installation, we manage every stage, simplifying your process while delivering on time, on budget, and on vision.

Workbench Line 1

Workstation

The Work Bench Line 1 is a modular bench system featuring diverse sizes, angles, and shapes, offering designers the freedom to create dynamic open-space work halls, managerial setups, and private offices. This line's standout feature lies in its meticulously engineered metal components, ensuring robust mechanical fixation for enhanced durability and functionality. Attention to detail defines this system, with features such as optimized cable management to minimize clutter and maintain a clean, organized workspace. Work Bench Line 1 is designed to foster teamwork, interaction, and productivity, making it an ideal solution for modern work environments.

Match Box Shelving Unit

A versatile storage solution available as a sideboard or a vertical shelving unit. Ideal for breaking the monotony of traditional office storage. Adds visual relief in office layouts by replacing redundant storage units. Can act as a partition, dividing a space into distinct zones for better space identification. This shelving unit is designed for both functionality and aesthetic appeal, enhancing modern office environments.

Match Box Shelving Unit

An alternative storage unit available either in the form of a sideboard or a vertical shelving unit. Matchbox could be used within the office layout to break the redundancy of the typical office storage units at certain areas, offering a bit of a visual relief. They could also be both used in the middle of a space dividing it into two zones, creating a visual partition for space identification.
